**COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE**

Dear Sir:

In response to the Examiner's statement of reasons for allowance, it is noted that not all claims require both entries indicating quality of service and mobility management. For example, independent claim 16 recites a first entry indicating a quality of service and a second entry containing a network access identifier, independent claim 29 recites entries identifying usage elements including a service type, amount of data communicated, and mobility management, independent claim 32 recites a first field indicating a quality of service, a second field indicating if the service is chargeable, and a third field including an identifier.

Respectfully submitted,
